Neutral, consistent and reliable FX execution

Trading with LMAX Global addresses the fundamental changes happening within the FX market, **and solves two key industry problems:**

- › **The lack of transparency of the true cost of OTC traded FX**
- › **The lack of precise, consistent and reliable FX trade execution *and* data**

We offer direct access to the LMAX Exchange central limit order book, delivering **transparent cost of trade** and **neutral execution** to both the buy-side and sell-side. The LMAX Exchange central limit order book is driven by no ‘last look’, streaming, firm limit orders from top tier banks and proprietary market makers.

LMAX Global - delivering exchange quality execution

The ‘exchange’ trading model is an efficient and cost-effective way to trade very liquid products, such as spot FX. In an industry currently driven by regulatory reforms, LMAX Global offers access to a transparent, neutral, level playing field to brokers and professionals across the FX market.

Delivering multiple, distinct FX trading advantages

- › **Complete pre & post-trade transparency**
- › **Central limit order book with streaming, firm limit order liquidity**
- › **Global exchange infrastructure based in Equinix LD4, NY4 and TY3**
- › **Real-time, full order book, market data and trade data**
- › **No 'last look' rejections *and* no requotes**
- › **Strict price/time priority order matching**
- › **Total trading anonymity with unparalleled exchange quality execution**
- › **Flexible clearing - via margin account or existing PB account**
- › **Competitive commission and overnight financing rates**

LMAX Global - where no 'last look' is standard

LMAX Global delivers the unique benefits of exchange quality execution, complete pre and post-trade transparency and a secure, level playing field for all market participants.

For brokers, money managers and professional traders - the central limit order book, direct and anonymous market access to live, streaming limit-orders with no 'last look' rejects ensures precise, consistent trade execution and transparent cost of trade.
