- 16.1 **Settlement Limits between Matching Bank Members.** As between any two Bank Members, the Settlement Limit for Spot FX and Spot Bullion Transactions will be the lower of the limits specifically set by each of those two Members for the relevant Contract type. For the avoidance of doubt, if the Settlement Limit that applies between the two matched Members would be exceeded as a result of entering into such a Transaction, no Transactions will be formed.
- 16.2 **Calculation.** For each Bank Member, LMAX will calculate its Net Open Position with each of its counterparties for each value date, and at the Member's request, an Outstanding Net Open Position across all value dates, whether they have been settled or not.
- 16.3 **Net Open Positions.** For Spot FX and Spot Bullion Transactions and each LMAX Exchange Service (individually and in aggregate), LMAX will calculate:
- (a) the Net Open Position of each Member by netting short and long positions for a value date for each currency or bullion, then converting all net long and short positions into US Dollars based on the relevant LMAX Service closing prices from the previous Trading Day, and then summing all short and all long positions so converted. The Net Open Position of a Member is the higher of the aggregate long and the aggregate short position; and
 - (b) the Outstanding Net Open Position of each Member that requested this calculation by netting all short and long positions across value dates for each currency or bullion, then converting all net long and short positions into US Dollars based on the relevant LMAX Service closing prices from the previous Trading Day, and then summing all short and all long positions so converted. The Outstanding Net Open Position of a Member is the higher of the aggregate long and the aggregate short position.

17. Settlement Limits as between Bank Members and Settlement Banks

- 17.2 **Calculation.** For each Settlement Bank, LMAX will calculate each Bank Member's Net Open Position for each value date. LMAX will include all Transactions which have not yet been settled.
- 17.3 **Net Open Positions.** LMAX will calculate each Bank Member's Net Open Position by netting short and long positions for each currency, then converting all net long and short positions into US Dollars based on the closing prices of the LMAX Exchange Service or LMAX InterBank Service as is applicable from the previous Trading Day, and then summing all short and all long positions so converted. The Bank Member's Net Open Position is the higher of the aggregate long and the aggregate short position.

18. **No guarantee**

LMAX is not responsible for, nor guarantees the performance of, any Transaction. Each Bank Member agrees that it has no rights against LMAX and is not to proceed against LMAX to collect or recover sums or to enforce any rights in connection with, or as a result of, any Transaction.
