Neutral, consistent and reliable FX execution

Trading with LMAX Global addresses the fundamental changes happening within the FX market **and solves two key industry problems:**

- › **The lack of transparency of the true cost of OTC traded FX**
- › **The lack of precise, consistent and reliable FX trade execution *and* data**

LMAX Global offers trading access to deep institutional liquidity, which combines LMAX Exchange CLOB and additional peer to peer liquidity pools. Our clients benefit from trading on **tight prices, transparent and precise execution** with no 'last look' rejections.

LMAX Global - delivering exchange quality execution

The 'exchange' trading model is an efficient and cost-effective way to trade very liquid products, such as global FX. In an industry currently driven by regulatory reforms, LMAX Global offers access to **a transparent, level playing field for brokers and professionals** across the FX market.

Delivering multiple, distinct FX trading advantages

- › Tighter spreads on streaming, firm limit order liquidity
- › Transparent price discovery
- › Real-time, full order book, market and trade data
- › No 'last look' rejections *and* no requotes
- › Strict price/time priority order matching
- › Total trading anonymity with unparalleled exchange quality execution
- › Flexible clearing - via margin account or existing PB account
- › Competitive commission and overnight financing rates
- › Global exchange infrastructure based in Equinix LD4, NY4 and TY3

LMAX Global - where no 'last look' is standard

LMAX Global delivers the unique benefits of exchange quality execution, transparent price discovery and a secure, level playing field for all brokers and professional traders.

Complete transparency means a level playing field for all participants

.....
 For brokers, money managers and professional traders - a central limit order book, direct and anonymous market access to live, streaming limit-orders with no 'last look' rejections ensures precise, consistent trade execution and transparent cost of trade.

Clients benefit from transparent price discovery, exchange quality execution in strict price/time priority and anonymous trading within an environment where access to the same technology is available to all - regardless of status, size or activity levels.

LMAX Global operates regulated brokers for FX

.....
 Whilst diverse liquidity, transparent price discovery and real-time streaming market data are at the heart of our business and central to efficient trade execution for clients - to further enhance trading security - LMAX Global is regulated as a broker by the Financial Conduct Authority in the UK, by the Cyprus Securities and Exchange Commission in the EU and registered as a Financial Service Provider in New Zealand.
