

Matt DellaRocca joins LMAX Exchange as Liquidity Manager for the Americas

London, New York, 13 June 2017 - LMAX Exchange, the FCA regulated MTF for FX, has appointed Matt DellaRocca to the newly created position of Liquidity Manager for the Americas. Matt will be responsible for the real-time management, monitoring and analysis of all LMAX Exchange liquidity in the US. Matt joins LMAX Exchange from Bloomberg Tradebook, where he was a Liquidity Manager.

This appointment comes as LMAX Exchange continues to expand in the US institutional and interbank client segments, enabling North American clients to benefit from trading on unique, no 'last look' limit order liquidity.

Commenting on the appointment, Patrick Bartle, Global Head of Institutional Sales at LMAX Exchange said: "We are delighted to be able to attract such talent to the company, helping us anchor our expansion into the US market."

Matt DellaRocca commented: "I'm excited to join a team committed to transforming the FX marketplace into a transparent, level playing field for all market participants. I look forward to contributing to the growth of LMAX Exchange within the US marketplace."

Following the launch of the North American matching engine in New York (NY4) in 2016, LMAX Exchange is focused on the growth in the US and regards it as a key market for the successful execution of its global growth strategy.

Notes to Editors

About LMAX Exchange:

Recognised as one of the UK's fastest growing technology firms, LMAX Exchange is the leading MTF for FX, authorised and regulated by the FCA. Servicing funds, banks, brokerages and asset managers, LMAX Exchange delivers firm liquidity, anonymous exchange quality execution and a secure, transparent level playing field to all market participants, regardless of status, size or activity levels.

The LMAX Exchange open order book is driven by no 'last look' limit-order liquidity from top tier banks and non-bank financial institutions. Orders are executed in price/time priority with real time streaming continuous market and trade data published to all members. Offering a comprehensive range of instruments including spot FX, precious metals, commodities and equity indices, LMAX Exchange operates a global FX exchange infrastructure with matching engines in London, New York and Tokyo.

LMAX Exchange - a unique vision for global FX.
